July 30, 2020

Dear Residents, Families, and Associates of BridgePoint at Los Altos:

All residents and associates received negative COVID results from the mass COVID test on July 22nd. The one positive result received was for a third party outside agency worker.

Our next mass COVID test for residents and staff will be tomorrow, July 31st between 8:30 am and 11:30 am. Residents are to stay in their apartment until a Bridgepoint associate comes to assist them to their testing room. We also have a second mass COVID test for residents and staff scheduled for Wednesday, August 5th. We will send out a reminder to all as we near this date. As always, results may take 3-5 days. If we maintain negative test results for 2 consecutive weeks, then we will test on a monthly basis.

As a reminder, Elevator 1 by apartments 113 and 213 is up and running! Thank you to everyone who have been extremely patient as we worked to get the elevator remodeled and fully functioning.

Yesterday, first floor residents were treated to live music in their hallways brought to them by Michael's Magical Music Train. Second floor residents will board the music train next week. We thank our Sales Director, Michael Tow, for
