

A MESSAGE FROM THE EXECUTIVE DIRECTOR

WADE VEST
EXECUTIVE DIRECTOR

July 27, 2020

Hi Everyone,

I wanted to send another update pertaining to Sagewood at Daybreak. One of our associates family members tested positive for coronavirus later last week. Our associate went in for testing immediately after they were notified of the positive test result. The test results of our associate came back positive today. The last time this associate worked in our community was last Wednesday evening (July 22nd) and is a part-time associate.

We have communicated with our contacts with both the Department of Health Licensing as well as the Office of Epidemiology. We are currently working with them to arrange for testing in our community for associates as well as interested residents. This will be arranged as soon as possible.

Our operational procedures will remain the same as of our last communication. If you have any questions, please feel free to reach out to me. We appreciate you all so much and are thankful for your partnership.

I'll continue with consistent updates as we did before when we had the positive test results a couple weeks ago.

Have a great night!

Wade
